Fact Sheet for Institutional Orientation Products

If your goal is to get your nurses oriented, then look no further!

The institutional version of the orientation programs includes the same great quality information as the individual programs, with one huge difference: **support for as many nurses as you want to get oriented!**

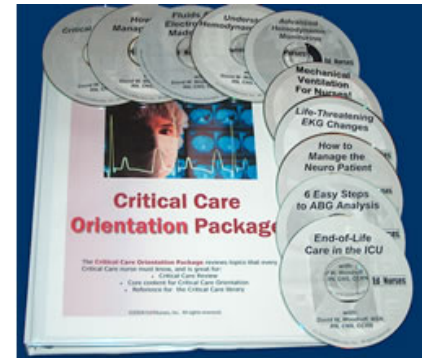

With an institutional version, you will get a “site license” so that your hospital will be able to copy the materials as much as you need them. You can make additional workbooks, copy the CDs, or even post all the information on your hospital’s intranet for your nurses to access from home. When you buy the institutional version, you get the license to use the program as you wish.

But, there is a catch! You must use the program materials in their entirety; including the pocket references, and the on-line resources provided at: www.nurses-success-network.com. The system is carefully compiled to assure that your nurses learn the essential concepts necessary for their area of practice, so please do not alter the content in any way.

Our guarantee is good for all your nurses who use the program. The guarantee is: **“Your nurses will get it,”** period! This means that they will understand the content and be able to apply it in the clinical setting. Your job is hard enough, and you have enough content to try to teach during orientation, let me help with the essential clinical concepts.

Your satisfaction is fully guaranteed too! You don’t need to decide now if the institutional product is for you, just get it and try it out. If your nurses don’t feel more confident, or if their nursing care doesn’t improve, or if you don’t absolutely love it, just let me know and I’ll give you every cent of your money back. No questions asked.

Now that you know that there is no risk in the decision – your nurses will “get it” and you will be totally satisfied – let’s look at your options.

Everything your nurses need to be successful is included: 1) a comprehensive workbook (approx. 100 pages), 10 hours of content and review on audio CD, and Pocket References for important information. You can even offer CEUs! (essential forms are included).

Call (800) 990-2629, or visit www.Ed4Nurses.com/hospitals today and add me to your orientation team. I guarantee that you won’t be disappointed!
